Township tours in Cape Town are a must for anyone wanting to discover the other side of life in Cape Town. These tours take you from the legendary District Six, to some of Cape Town's thriving township such as Langa, where you will learn about the Dutch and British rule of the Cape, slavery, Apartheid, freedom and democracy. You will also have the chance to enjoy local cuisine as well as traditional healers, visit local schools, vibrant churches, shebeens and many other fascinating things to see and do. The people you meet on your township tour will leave you with a new admiration of the South African philosophy of 'Ubuntu', meaning a person is a person through other people, as they share a bit of insight into daily life in the townships of Cape Town.
